PRODUCTS
INSIDE

Established in 1960, Conwin is a second generation family-owned business that takes pride in producing innovative, quality products. We are committed to our customers and treat them as our most valued asset. We are proud of our worldwide recognition as the leading manufacturer of balloon equipment and look forward to being your preferred supplier.

Conwin products are backed by an exclusive Lifetime Warranty. Our friendly and knowledgeable service team is here to assist you with product support. For immediate assistance, visit Conwin's Online Service Center. Here you will find troubleshooting tips, step-by-step repair solutions and replacement parts.

Conwin's Distributor Network is an elite group of distributors that share Conwin's commitment to excellent customer service. They are dedicated to providing quality products and services and look forward to fulfilling all of your Conwin product needs. Visit ConwinOnline.com to find a distributor near you.

To keep up with the latest news, products, and designs, visit ConwinOnline.com. The Design Center is the perfect place to be inspired. Here you'll see step-by-step balloon recipes, learn about leading balloon artists around the world, see their spectacular portfolios....and much, much, more.

Powerful and Dependable

Air Inflators you can count on.

AIR FORCE 4 INFLATOR™

Unmatched for speed and efficiency, the Air Force 4's powerful motor and turbo air intakes enable fast, simultaneous inflation on four outlets. Unit can be foot-pedal controlled, or set on continual "ON" mode for mass inflation of balloons. Large Balloon Inflation Hose allows you to rapidly inflate balloons 16" and larger in 1/3 the time! Item # 82300

How it Works

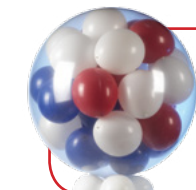

Inflate 4 balloons simultaneously

Inflate balloons 16" & larger in 1/3 the time!

Work up to 4 Times Faster!

Stuff Balloons the Easy Way!

Insider Balloon Stuffing Tool for Precision Air & Air Force 4 Item # 36920
View page 14 for more details.

AIR PRO INFLATOR™

The Air-Pro quickly and easily inflates all size balloons by pressing down on the Push Valve Outlet. The filling outlet features an extension tip for inflating small latex balloons and all size foils. The powerful Air-Pro motor runs only during the inflation cycle making it an ideal inflator for retail settings and professional balloon decorators. Item # 86500

The **Soft Pack Carrying Case** features inner-mesh pocket for accessory storage as well as shoulder strap for easy transport.

Precision Air V6

PRECISION AIR™ V6 INFLATOR

The Precision Air automatically sizes air-filled latex balloons without the use of heavy cylinders, noisy air compressors, or time-consuming templates. Great for columns, sculptures and other air-filled decor. Adjust the inflation time by tenths of a second for precision sizing. Proper balloon sizing eliminates popped balloons, and ensures consistent costing and customer satisfaction. Electrical unit includes a built-in, adjustable cycle counter that tracks the number of balloons inflated. New model allows you to also inflate a single balloon automatically or two different sized balloons. Increase efficiency with the new Auto-Inflate Cycle function and now inflate any size round balloon and entertainer balloons 2" in diameter and larger.

Item # 83601

new!

DUAL SPLIT-SECOND SIZER™

The Dual Split-Second Sizer is the most versatile inflator on the market. Great for arches, columns, bouquets, sculptures, canopies, and more. Precisely adjust the inflation cycle time by tenths of a second for precision sizing of one or two balloons. Proper balloon sizing ensures correct costing, customer satisfaction, and eliminates popped balloons and wasted helium. Adjustable regulator allows for unlimited size settings and size consistency from a full to empty cylinder. Gets the job done faster, more efficiently, and best of all, more profitably! Electric inflator operates from a helium or nitrogen cylinder, or an air compressor. New model includes a built-in, adjustable cycle counter that tracks the number of balloons inflated.

The Features & Options of CONWIN Inflators

1 Four Latex Outlets to choose from:

Soft-Touch Push Valve
operates by pushing the valve down and features an extension tip to inflate 5", 260s and valved latex balloons.

Flex-Tilt Valve
operates by the tilting valve forward to inflate 9" and larger latex balloons.

Quick-Change
Quick-disconnect fitting allows you to change from one Snap-On Outlet to another quickly and efficiently. View Snap-On outlets on page 13.

60/40 Push Valve
allows you to inflate 11" and larger latex balloons with 60% helium and 40% air 100% helium.

2 The Pressure Gauge measures how much gas is in the cylinder and enables you to calculate the number of balloons that can be inflated.

3 The Ribbon Cutter is designed with a concealed blade for user protection and easily cuts curling ribbon, archline and entertainer balloons.

4 Attach ribbon and tie balloons in one easy motion on the Disc Tyer Post with Conwin's Balloon Tying Discs (pg. 18).

5 The improved Bubble Button (available on the Bubble Inflator only) gives you the ability to inflate Bubbles™, Deco Bubbles™ and now Double Bubbles™ to "wrinkle-free" seams.

6 The Auto-Fill Foil Outlet automatically reduces the flow of gas when the correct pressure and size has been reached. Never pop a foil balloon again!

7 Attach the inflator to the cylinder with a Hand-Tight Connection. No wrench required.

All Conwin inflators include the Flo-Loc®, an emergency helium flow reduction feature, designed to activate if the balloon inflator is damaged while under pressure. Keeping you, your employees and your customers safe. Not applicable in some countries.

PRECISION PLUS INFLATOR™

The Precision Plus automatically inflates foils to the correct pressure and size. The foil inflating outlet points downward to allow for fast one-hand inflation of valved foil balloons. Four latex balloon filling outlets to choose from to manually inflates latex balloons. See inflator features on page 10.

Stuff Balloons the Easy Way!

Insider Balloon Stuffing Tool w/10-ft

Extension Hose Inflator Item # 84900

View page. 14 for more details.

SNAP-ON Accessories

new!

the Fast & Easy way to Stuff Balloons!

INSIDER BALLOON STUFFING TOOL™

The Insider Balloon Stuffing Tools are accessory items for use with Conwin's Dual Sizer, Duplicator 2, the 10ft Extension Hose Inflator, Air Force 4 and Precision Air. This fast and easy-to-use tool efficiently fills large balloons with the maximum number of small balloons. The Insider Tool requires an air machine (Air Force 4 or Air Pro) to inflate the large outer balloon.

How it Works

Inflate the large balloon on the Holding Tool with air.

Insert small balloons into the large balloon through the hole in the Holding Tool.

3 Options to Choose From:

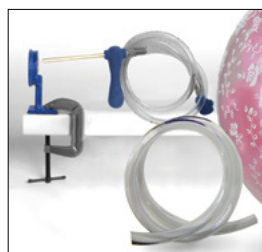

Option 1
now works with
the **PRECISION
Air!**

Option 1 Insider Balloon Stuffing Tool for Precision Air and Air Force 4

Inflation Tool is designed to work with Conwin's Air Force 4 (pg. 3) and now with the Precision Air (pg. 4).

Item #36920

Option 2 Insider Balloon Stuffing Tool for Dual Sizer & Duplicator 2.

Designed to work with Conwin's Dual Split-Second Sizer (pg. 6) and Duplicator 2 (pg. 8).

Item # 85900

Option 3 Insider Balloon Stuffing Tool w/ 10-ft Extension Hose Inflator

Includes 10ft Extension Hose Inflator to work directly off a cylinder.

Item # 84900

new!

Every Accessory You Need to Maximize Your Time and Profits!

ACCESSORY STARTER KIT

The Accessory Starter Kit includes all the accessories to help you get your business off the ground. Create a professional work center with the Cylinder Cover and 3-Pocket Balloon Caddy. Keep all of your tools and accessories conveniently within hands reach with the Designer Work Belt. Increase efficiency with the Quick Cutters, Scissor Keepers and Balloon Tying Discs.

Item # 10721

INCLUDES:

- Designer Work Belt
- Cylinder Cover
- 3-Pocket Balloon Caddy
- Quick Cutters (2pk)
- Adhesive Grip Strips (10pk)
- Adhesive Grip Tabs (108pk)
- Balloon Tying Discs (1000pk)
- Scissor Keepers (4pk)

Purchase the Kit and Save!

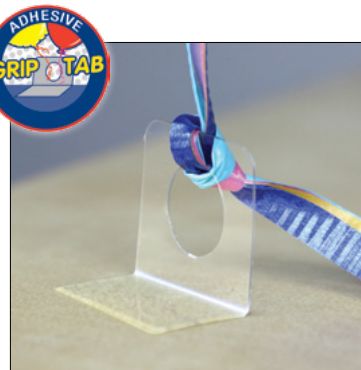

ADHESIVE GRIP-TABS

Simply stick the Grip-Tabs to any clean surface and tie on the balloons. Ideal for use with centerpiece designs, exploding balloons, and displaying inflated retail balloon samples. Each Grip Tab holds up to approximately twenty 11" latex balloons or one 3ft latex balloon.

Regular Grip-Tabs (108 pk)

Item # 32081

ADHESIVE GRIP-STRIPS

Great for on-the-job decorating and point of purchase displays, the sturdy plastic strips have adhesive backing to position them to any clean surface.

Item # 32070 (10 pk)

BALLOON ARCHLINE

Ideal for rigging and balloon arches. Dacron grips balloons securely, doesn't stretch and is unaffected by temperature. Monofilament is easier to work with than fishing line.

50 lbs. Dacron Archline

Item # 32050 (300 yds.)

50 lbs. Monofilament Archline

Item # 32170 (300 yds.)

BALLOON TYING DISCS

Increase your productivity by attaching ribbon and tying balloons in one easy motion. Designed for use with latex balloons up to 16-inches. Discs pass the USCPSC's 3-year-old choke test.

Item # 32420 (1,000 pk)

CLIP-ON ARCHLINE PACK

Easily dispense archline with our convenient Archline Dispenser Pack. Holds two spools of archline, prevents line from free spinning. Clips on belt. Archline sold separately.

Item # 36050

3-POCKET BALLOON CADDY

Balloon Caddy holds balloons and supplies right within your reach. Adjustable Velcro® belt fits any size cylinder.

Item # 32021

THE DESIGNER WORK BELT

Designed and field tested by Balloon Decorators and Twisters, this specialized work belt features Velcro® straps that hold up to 1000 entertainer balloons, 12 easy-access pockets and an adjustable belt with quick-snap buckle.

Item # 36120

CYLINDER COVER

Fits large cylinders with drawstring top. Cover provides a clean and professional look in the shop or on-the-job.

Item # 32000
